

Speaker: Paul Wassmann

Professor Wassmann works at UiT the Arctic University of Norway, Institute of Arctic and Marine Research. He has been involved/leading in about 30 Norwegian, Nordic and EU research projects, including leading the EU FP7 project Arctic Tipping Points. He has been chairman of the board of the Nansen Legacy project. He is currently the head of the world-leading research group Seasonal Ice Zone Ecology (ArcticSIZE).

Wassmann is educated in chemistry, geophysics and biology at the University of Bergen and has been with UiT since 1988. With strong international connections in arctic marine ecology he has participated on > 30 cruises to Svalbard and the Arctic Ocean and initiated and organized the Pan-Arctic Symposia.
